Summary

Results-driven and passionate software engineer with over 6 years of experience in developing scalable applications and data-driven solutions. Proficient in a variety of programming languages and frameworks, with a proven track record of leading successful projects from conception to deployment. Expertise in Python and Docker, with a strong foundation in data science and full-stack development.

Experience

Senior Software Engineer
Tech Innovations Inc., Port Matthew
January 2020 - Present

- Developed and maintained a **Machine Learning Pipeline** that improved data processing speed by 30%, utilizing Python and various libraries.
- Led the design and implementation of a **Data Analytics Dashboard** which provided real-time insights for over 500 users, enhancing client decision-making capabilities.
- Collaborated with cross-functional teams to launch an **E-commerce Platform**, resulting in a 40% increase in sales within the first quarter post-launch.
- Mentored junior developers in best practices, improving team efficiency and code quality.

Software Developer
Creative Solutions LLC, Port Matthew
June 2017 - December 2019

- Engineered a robust **Content Management System** that streamlined content updates for over 200 client websites, reducing update time by 50%.
- Utilized **PostgreSQL** and **MongoDB** for database management, ensuring high availability and performance for client applications.
- Implemented microservices architecture using **Docker** and **AWS**, resulting in a 25% improvement in deployment speed.
- Enhanced application performance with Redis for caching, leading to a 15% decrease in load times.

Skills

- **Python** (Expert)
- **Docker** (Expert)
- **JavaScript** (Advanced)
- **Flask** (Advanced)
- **Angular** (Advanced)
- **Data Science** (Advanced)
- **PostgreSQL** (Advanced)
- **MongoDB** (Advanced)
- **Jenkins** (Intermediate)
- **AWS** (Intermediate)
- **Redis** (Intermediate)
- **Microservices** (Intermediate)

Projects

- **Machine Learning Pipeline**: Designed a comprehensive ML pipeline that automated data collection and model training, resulting in a 30% reduction in processing time.
- **Content Management System**: Developed a user-friendly CMS that facilitated seamless content updates for clients, used by over 200 websites.

- **E-commerce Platform**: Built a dynamic e-commerce site that integrated payment gateways and inventory management, achieving a 40% sales increase in the first quarter.
- **Data Analytics Dashboard**: Created an interactive dashboard for visualizing complex datasets, leading to improved business insights and client satisfaction.

Certifications

- **Google Cloud Professional**
- **Certified Kubernetes Administrator**
- **Docker Certified Associate**

Education

Bachelor of Science in Computer Science

University of Port Matthew

Graduated: May 2017

- Graduated with honors, focusing on software development and data analysis.
- Completed a capstone project on predictive analytics, utilizing machine learning techniques to forecast consumer behavior.
