Summary

Detail-oriented and innovative software developer with over 6 years of experience in building scalable web applications and robust backend systems. Proven expertise in JavaScript and PostgreSQL, complemented by a solid foundation in AWS and DevOps practices. Adept at collaborating with cross-functional teams to deliver high-quality software solutions that meet business objectives. Passionate about leveraging technology to drive efficiency and improve user experiences.

Experience

Senior Software Engineer
Innovatech Solutions, Brooksland
January 2021 - Present
- Spearheaded the development of an **E-commerce Platform**, increasing sales by 30% within the first six months post-launch through enhanced user experience and integration of payment gateways. - Led a team of 5 developers in designing a **Data Analytics Dashboard** that provided real-time insights, reducing decision-making time by 40% for stakeholders. - Implemented CI/CD pipelines using **Jenkins**, improving deployment efficiency by 25%.

Software Developer
TechSavvy Corp, Brooksland
June 2018 - December 2020
- Developed a comprehensive **Content Management System** that streamlined content creation processes, resulting in a 50% reduction in content update time. -

Collaborated with the UX team to optimize web applications using **JavaScript** and **TypeScript**, achieving a 20% increase in user engagement. - Enhanced database performance by 15% through efficient querying and indexing in **PostgreSQL**.

Junior Developer
Web Solutions LLC, Brooksland
January 2017 - May 2018
- Assisted in the development of internal tools using **Java**, improving team productivity by automating repetitive tasks. - Gained hands-on experience with version control using **Git**, reinforcing best practices in code management and collaboration.

Skills

- **JavaScript:** Expert
- **PostgreSQL:** Advanced
- **Java:** Advanced
- **Rust:** Intermediate
- **TypeScript:** Intermediate
- **Git:** Intermediate
- **Jenkins:** Intermediate
- **AWS:** Intermediate

Projects

E-commerce Platform

- Developed a full-stack e-commerce application featuring a user-friendly interface and secure payment processing. Enabled users to track orders in real-time, leading to a significant increase in customer satisfaction.

Content Management System

- Designed and implemented a CMS that allowed non-technical users to manage website content effortlessly. Played a key role in enhancing the system's SEO capabilities, resulting in a 25% increase in organic traffic.

Data Analytics Dashboard

- Created a dashboard that aggregated and visualized data from multiple sources, providing actionable insights to business leaders. This project led to improved strategy alignment and faster response to market changes.

Certifications

- **Scrum Master Certification**
- **Docker Certified Associate**
- **AWS Certified Solutions Architect**

Education

Bachelor of Science in Computer Science
Brooksland University
Graduated: May 2016
- Completed coursework in Software Engineering, Database Management, and Web Development.
- Participated in hackathons, achieving top placements and further honing problem-solving skills.

Additional Information

- Actively contribute to open-source projects, focusing on Rust-based applications.
- Passionate about mentoring junior developers and sharing knowledge through tech meetups and workshops.
- Enjoys exploring new programming languages and frameworks to stay updated with industry trends.
