Summary

Passionate and results-driven software engineer with over 5 years of experience in developing scalable web applications and data analytics tools. Proficient in a variety of programming languages and frameworks, with a strong focus on delivering high-quality code and innovative solutions. A dedicated team player with a knack for problem-solving and a commitment to continuous learning.

Experience

Software Engineer

Innovatech Solutions — South Jennifer, CA
June 2020 - Present

- Developed a **Data Analytics Dashboard** that improved data visualization for clients, leading to a **30% increase in user engagement**.
- Collaborated in an agile team to design and implement a **microservices architecture** for a large-scale web application, enhancing system scalability and maintainability.
- Utilized **Java**, **PostgreSQL**, and **Angular** to create dynamic web applications that supported real-time data processing.
- Mentored junior developers on best practices in **Git** and **JavaScript**, fostering a culture of knowledge sharing.

Junior Software Developer

TechWave Solutions — South Jennifer, CA
January 2018 - May 2020

- Contributed to the development of an enterprise-level **Web Application**, achieving a **95% customer satisfaction rating**.
- Integrated third-party APIs to enhance application functionality, resulting in a **20% reduction in load times**.
- Assisted in the migration of legacy systems to a modern tech stack using **React** and **Microservices**.
- Participated in daily stand-ups and sprint planning as part of the **Scrum** team, improving team efficiency.

Skills

- **Java**: Advanced
- **JavaScript**: Advanced
- **Angular**: Advanced
- **React**: Intermediate
- **PostgreSQL**: Advanced
- **Microservices**: Advanced
- **Git**: Intermediate
- **Data Science**: Beginner

Projects

Data Analytics Dashboard

- Designed and developed an interactive dashboard for real-time data analysis, incorporating advanced visualizations that helped stakeholders make informed decisions.
- Technologies used: **Java**, **PostgreSQL**, **Angular**.

Web Application

- Created a responsive web application for managing client data, which streamlined business operations and improved user experience.
- Technologies used: **JavaScript**, **React**, **Microservices**.

Certifications

- **Docker Certified Associate**
- **AWS Certified Solutions Architect**
- **Scrum Master Certification**

Education

Bachelor of Science in Computer Science
University of South Jennifer — South Jennifer, CA
Graduated: May 2017

Additional Information

- Actively participating in local programming meetups to enhance skills and network with other professionals in the industry.
- Eager to expand knowledge in **Data Science**, currently enrolled in online courses to improve proficiency.
